SOVIET ASTRONOMY – AJ

Volume 2, 1958

Soviet Astronomy – AJ: Author Index for Vol. 2, 1958

(Russian Original Vol. 35, 1958, Astronomical Journal of the Academy of Sciences of the USSR)

Abele, M. K., see Shteins, K. A. - 70

Agekian, T. A. On the Change of Rotational Velocity in Stellar Evolution - 389

Agekian, T. A. The Evolution of Rotating Systems of Gravitating Bodies - 22

Artiukhina, N. M. and P. N. Kholopov. The Distribution of Stellar Density in the Open Cluster M37 - 486

Babich, O. L., see Vsekhsviatskii, S. K. - 433

Bagariatskii, B. A., The Influence of Proton Spiral Trajectories on the Doppler Profile of Auroral Hydrogen Lines - 87

Bagariatskii, B. A. The Velocity Dispersion of a Solar Corpuscular Stream near the Earth - - 203

Bagariatskii, B. A., The Zenith-Angle Distribution Function of Auroral Protons - 453

Barabashov, N. P. Basic Results of Observations of Mars during the Favorable Opposition of 1956 - 814

Barabashov, N. P. and L. K. Koval'. Contribution to the Study of the Structure of the South Polar Ice Cap of Mars during 1956 - 234

Barkhatova, K. A. Clusters in the Region of the North America Nebula - 410

Barkhatova, K. A. and L. L. Driakhlushina, The Open Cluster NGC 1664 - 449

Benediktov, E. A. On the Frequency of the Radio Lines of the CH Molecule - 608

Berdichevskaia, V. S. Theoretical and Observed Equivalent Widths of Some Strong Lines in the Sunspot Spectrum - 682

Biutner, E. K. The Dissipation of Gas from Planetary Atmospheres. I. The Dissipation of an Isothermal Ideal Gas in a Central Field of Gravitation - 528

Boiarchuk, A. A. and L. M. Kopylov. On the Distribution of Stellar Rotational Velocities - 752

Breido, I. L. A comparison of the Properties of Photographic Plates Associated with the Photographing of Extended and Point Objects - 589

Bronshten, V. A. and I. T. Zotkin, VII Plenum of the Commission of Comets and Meteors of the Astronomical Council of the Academy of Sciences of the USSR - 462

Brumberg, V. A. The Equations of Motion and the Coordinate Condtions in the Relativistic N-Body Problem - 839

Bulatova-Kalikhevich, F. V. The Determination of the Atmospheric Dispersion Coefficient for the Pulkovo Normal Astrograph - 871

Dadaev, A. N. Astronomical Instruments on Display at the Brussels International Fair - 634

Daniushevskii, E. E. Stresses and Deformations of a Disk Suspended Vertically on a Flexible Band - 251

Deich, A. N. Determination of the Photographic Position of an Artificial Earth Satellite by Two Reference Stars - 758

Dibai, E.A. A Study of Open Cluster IC 1369 - 884

Dibai, E. A. The Magnetogravitational Instability of an Infinite Cylinder - 226

Dibai, E. A. The Evolution of Globules in the Vicinity of Hot Stars - 429

Dombrovskii, V. A. On the Nature of the Radiation from the Omega Nebula - 646

Driakhlushina, L. L., see Barkhatova, K. A. - 449

Drozdov, S. V. A Comparison of Declinations Obtained by Different Methods from Observations with a Zenith Telescope - 145

Duboshin, G. N. The Differential Equations of Translational - Rotational Motion of Mutually Attracting Rigid Bodies - 239

Dvoriashin, A. S. see E. R. Mustel' - 1

Egorov, V. A. Definition of the True Anomaly in Perturbed Motion - 147

Fesenkov, V. G. Expedition of the Academy of Sciences of the USSR to Aswan, Egypt, for Observations of the Zodiacal Light and of the Optical Properties of the Atmosphere - 276

Fesenkov, V. G. On the Polarization of Zodiacal Light 475

Fesenkov, V. G. On the Total Polarization of Light - 639

Fesenkov, V. G. On the Reduction of Observation of Zodiacal Light - 299

Fesenkov, V. G. The Scientific Work of the Helwan Observatory - 256

Fesenkov, V. G. Zodical Light as the Product of Disintegration of Asteroids - 303

Fialko, E. L. Mean Characteristic Height of Meteors Detected by Radar - 825

Fokin, A. V. An Investigation of the Motion of the Comet Oterma 3 1942 VII. - 628

Gal'perin, Iu. I. On the Profiles of the Hydrogen Lines in Auroral Spectra - 351
Getmantsev, G. G. On Some Peculiarities of the Magnetodecelerating Mechanism of Non-thermal Radio Emission - 676
Ginzburg, V. L. and V. V. Zhelezniakov. On the Possible Mechanisms of Sporadic Solar Radio Emission (Radiation in an Isotropic Plasma) - 653
Gorbatskii, V. G. On the Interpretation of the Emission Spectrum of Long-Period Variable Stars . II - 698
Gordon, I. M. The Physical Nature of Nonthermal Emission in the Spectra of T Tau stars and the Problem of the Origin of Cosmic Rays, I. - - 420
Grebenikov, E. A. The Analytical Theory of Motion of Japetus - 850
Grigor'eva, N. B. Some Results of a Study of the Cluster NGC 6940 - 881
Guliaev, A. P. Some Procedural Problems in the Determination of Irregularities of Pivots, Exemplified by Reseach Carried out on the Moscow Meridian Circle - 128
Gurvich, A. S., see V. I. Tatarskii - 578
Gurzadian, G. A. A Note on the Intensity Variation of the Line λ 4363 [OIII] in the Spectrum of the Planetary Nebula IC 4997 - - 482

Hoppe, J. International Conference on "Interplanetary Matter", p. 457

Iarov-Iarovoi, M. S. On the Determination of the Secular Motions of the Perihelion and Node from Observations - 721

Kallistratova, M. A., see V. I. Tatarskii - 578
Kameneva, Z. I., see Vitkevich, V. V. - 343
Kaziutinskii, V. V., see Vsekhsviatskii, S. K. - 433
Khabibullin, Sh. T. On a Unique Solution for the f Parameter of the Physical Libration of the Moon - 622
Kharitonov, A. V., see D. A. Rozhkovskii - 438
Khmeleva, R. N., see Sitnik, G. F. - 878
Kholopov, P. N., The Spectrum-Luminosity Diagram for T-Associations - 398
Kholopov, P. N., see N. M. Artiukhina - 486
Kliakotko, M. A. On the Structure of the Velocity Field of Motions in Latitude of Nonrecurring Sunspots - 689
Kolchinskii, I. G., see Mel'nikov, O. A. - 767
Kondurar', V.T. Development of the Force Function for the Mutual Attraction of Two Ellipsoids (Uniform and Nonuniform) - 712
Kononovich, E. V., see Shklovskii, I. S. - 32

Kopylov, I. M. On the Question of the Spatial Distribution of Hot-Star Groupings - 359
Kopylov, I. M., see Boiarchuk, A. A. - 752
Kostylev, K. V. Equipment for Radio-Echo Observation of Meteors with Automatic Recording, at the Engel'gardt Astronomical Observatory - 596
Koval', I. K. The Absolute Photometry of Venus in Ultraviolet and Infrared Light - 739
Koval', I. K. see Barabashov, N. P. - 234
Krasovskii, V. I. "Cold" Interstellar Gas and Light Absorption - 775
Krasovskii, V. I. The Characteristic Properties of Solar Corpuscular Emission from Auroral Spectra - 199
Kurochkin, N. E. The Division of Short-Period Cepheids into Two Subsystems - 141
Kurochkin, N. E. The Space Distribution of Early Spectral Type Stars - 74

Leikin, G. A. The Influence of Tidal Friction on the Motion of an Artificial Earth Satellite - 268
Letoval'tsev, I. G. The Transformation of Rectangular Space Coordinates on the Earth's Ellipsoid 582
Lipskii, Iu. N. The Dependence of Equivalent Widths of Coronal Lines on the Degree of Polarization of the Continuous Spectrum of the Corona - 615
Lipskii, Iu. N. Time Marking in the Photographing of Artificial Earth Satellites - 273

Masevich, A. G. Some Peculiar Stars Found below the Main Sequence on the H-R Diagram - - 263
Masevich, A. The Tenth International Astronomical Congress in Moscow - 887
Matiagin, V. S., see D.A. Rozhkovskii - 438
Mel'nikov, O. A. The Calibration of the Gradient (Spectrophotometric) Stellar Temperature Scale by Reference to the Sun - 195
Mel'nikov, O. A. and I. G. Kolchinskii. Conference on the Scintillation of Stars and the Problem of Wave Propagation in a Medium with Random Anomalies - 767
Mitropol'skaia, O. N., see Mustel', E. R. - 172
Mokhnach, D. O. The Nonstationary Distribution of Apparent Density in Comets - 560
Mustel', E. R. Corpuscular Streams during the Years of Minumum Solar Activity and Their Properties, - 326
Mustel', E. R. and A. S. Dvoriashin, Solar Activity and Geomagnetic Disturbances in 1942-1944 - 1

Mustel', E. R. and O. N. Mitropol'skaia, Plages and the Twenty-Seven-Day Recurrence Tendency in Geomagnetic Distrubances - 172

Nikitin, A. A. On Technetium Lines in the Solar Spectrum. I - 15

Nikitin, A. A. - On the Lines of Technetium in the Solar Spectrum. II - 338

Nikol'skii, G. M. The Possibility of Absorption of Solar L_{α}-Radiation by the Interplanetary Medium - 610

Orlov, M. Ia. On the Anomalous Excitation of Hydrogen in the Atmosphere of α Boo - 704

Orlov, S. V. Visual Catalogs of Absolute Magnitudes of Comets - 444

Panaiotov, L. A. Some Peculiarities of Motion of B Stars in a Narrow Galactic Zone - 54

Panaiotov, L. A. Some Photometric and Spectral Characteristics of Comet 1956h - 230

Parenago, P. P. A Revision of the Hertzsprung-Russell Diagram According to the Data on Near Stars - 151

Parenago, P. P. The Kinematics of the Various Sequences of the Spectrum-Luminosity Diagram - 446

Parenago, P. P. The Masses of the Components of γ Leonis, Which Belong to the Giants of the Spherical Component of the Galaxy - 260

Pariiskii, Iu. N. and U. V. Khangil'din. Observations of the Total Solar Eclipse of June 30, 1954, at Millimeter Wavelengths - 612

Peregudov, F. I. On the Effect of Meteor Velocities on the Hour Number in Radio-Echo Detection of Meteors - 833

Perel', Iu. G. Concerning the "Philosophical Foundation" of One Question - 744

Perel' Iu. G. "Discovery of the Universe" by Gerard de Vaucouleurs, Book Review - 631

Perel', Iu. G. Plenum of the Commission of the History of Astronomy - 470

Pisareva, V. V. The Diffraction of Radio Waves by Random Nonuniformities, and Intensity Variations of Solar and Cosmic Radio Emission - 97

Potter, Kh. I. On the Use of Observations of the Moon for Geodetic Purposes - 573

Potter, Kh. I. The Velocity of the Apparent Motion of the Moon among the Stars - 123

Podobed, V. V. Fourteenth Astrometric Conference - 771

Radlova, L. N. and V. V. Sharonov, The Threshold of Color Discrimination for Visual Observation of the Lunar Surface and the Maximum Color Difference of Lunar Objects - 735

Radzievskii, V. V. On the Period-Eccentricity Correlation - 552

Razin, V. A. On the Galactic Halo - 778

Razin, V. A. The Polarization of Cosmic Radio Radiation at Wavelengths of 1.45 and 3.3 Meters - 216

Rozhkovskii, D. A., V. S. Matiagin and A. V. Kharitonov. Photographic Observations of Sputniks with the Maksutov Meniscus Telescope - 438

Safronov, V. S. Progress-Coordinating Plenum of The Astronomical Council of the Academy of Sciences of the USSR, Held at Pulkovo, February 5-7, 1958 - 468

Safronov, V. S. Session of the Astronomical Council of the Academy of Sciences of the USSR and of the Academy of Sciences of the Azerbaijan SSR - 466

Salomonovich, A. E. Radio Emission of the Moon at 8 Millimeters - 112

Samoilova-Iakhontova, N. S. Remarks on the Computation of Special Perturbations of Elements - 748

Severnyi, A. B. Nonstationary Processes in Solar Flares as a Manifestation of the Pinch Effect - 310

Sharov, A. S. Contribution on the Formula for the Coefficient of Proportionality between the General and Selective Absorption of Light and on Neutral Absorption of Light in the Galaxy - 266

Sharonov, V. V., see Radlova, L. N. - 735

Shcheglov, P. V. Some Methodological Problems in the Application of Image Converters in Astronomy - 604

Shklovskii, I. S. On the Nature of the Fine Structure of Emission of Active Regions on the Sun - 786

Shklovskii, I. S. The Interplanetary Medium and Some Problems of the Physics of the Upper Atmosphere - 516

Shklovskii, I. S. and E. V. Kononovich, Models of the Solar Chromosphere - 32

Shteins, K. A. The Limiting Criterion for the Capture of Comets - 139

Shteins, K. A. and M. K. Abele. On the Expansion of the Association II Cephei - 70

Sitnik, G. F. and R. N. Khmeleva. Some Conclusions from Observations of the Coefficient of Transparency of the Earth's Atmosphere at Kuchino - 878

Stankevich, K. S. The Investigation of Radio Emission from the Galactic Center on a Wavelength λ = 91.6 cm - 136

Tatarskii, V. L., A. S. Gurvich, M. A. Kallistratova, and L. F. Terent'eva. The Influence of Meteorological Conditions on the Intensity of Light Scintillation near the Earth's Surface - 578

Teleki, G. A Rapid Correction of the Declination of Talcott Pairs when Small Changes Are Made in the Latitude-Determination Program - 863

Terent'eva, L. V. see V. I. Tatarskii - 578

Torondzhadze, A. F. An Investigation of the Relation between Color Excess and the Factor for Converting Selective Absorption into Total Absorption. I - 60

Torondzhadze, A. F. An Investigation of the Relation between the Color Excess and the Factor Transforming Selective Absorption into Total Absorption. II - 507

Torondzhadze, A. F. The Determination of the Constant Parameters in the Relation between the Coefficient of Cosmic Absorption and Wavelength - 795

Tovchigrechko, S. S. An Investigation of the Micrometer Screws of Level-Testers - 730

Tovchigrechko, S. S. On Increasing the Reliability of One-Second and Rhythmic Radio Time Signals - 619

Udal'tsov, V.A. and V. V. Vitkevich. On the Intensity Distribution of the Discrete Radio Source Taurus A - 669

Vaisberg, O. L. Absorption of Light in a Mixture of the Negative Ions O_2^-, H^- and O^- - 877

Ventsel' M. K. A Note on the Solution of Kepler's Equation - 625

Vitkevich, V. V. New Data on the Supercorona of the Sun - 45

Vitkevich, V. V. The Twelfth General Assembly of the URSI (Radio Astronomy) - 286

Vitkevich, V. V. and Z. L. Kameneva, Bursts of Solar Radio Emission - 343

Vitkevich, V. V., see Udal'tsov, V. A. - 669

Vorontsov-Vel'iaminov, B. A. Radiogalaxies and Galaxies with Broad Emission Lines in Their Spectra. The Morphology of Galaxies. IV - 186

Vorontsov-Vel'iaminov, B.A. Review of "Vistas in Astronomy" (2 volumes) edited by M. Beer - - 454

Vorontsov-Vel'iaminov, B.A. The Interaction of Galaxies and the Nature of Their Arms, Spanning Filaments and Tails. The Morphology of Galaxies. V. - 805

Vsekhsviatskii, S. K. O. I. Babich and V. V. Kaziutinskii, On the Capture Hypothesis of the Origin of Short-Period Comets - 433

Zhelezniakov, V. V. On the Theory of the Sporadic Radio Emission from Jupiter - 206

Zhelezniakov, V.V., see Ginzburg, V. L. - 653

Zhevakin, S. A. The Dissipation of the Energy of Oscillation of a Pulsating Star - 538

Zotkin, I. T., see Bronshten, V. A. - 462

Soviet Astronomy – AJ: Analytic Subject Index for Vol. 2, 1958

(Russian Original Vol. 35, 1958, Astronomical Journal of the Academy of Sciences of the USSR)

Entries will be found under the following headings

Absorption of Light
Artificial Satellites
Associations of Stars
Asteroids (Minor Planets)
Astrographic Measurements
Astronomy, History and Progress
Atomic and Molecular Spectra
Aurorae

Book Reviews

Catalogs
Celestial Mechanics
Charged Particles, Acceleration and Emission
Clusters, Open
Color Excess
Color-Magnitude Diagram
Comets
Computing and Automatic Computers
Conferences and Meetings
Coordinates, Astronomical
Cosmic Rays

Deuterium

Earth, Atmosphere
Eclipse, Solar
Emission-Line Stars
Envelopes, Stellar
Extinction, Atmospheric
Extinction, Interstellar

Galaxies
Galaxy, The (Milky Way)
Gas Dynamics
Geodesy
Giant and Supergiant Stars

Hertzsprung-Russell (H-R) Diagram
Hydrogen, Lyman Series

Image Converter
Instruments and Accessories
International Astronomical Union (IAU)
Interplanetary Medium
Interstellar and Intergalactic Medium

Latitutde
Luminosity Function

Magnetic Storms (see Solar-Terrestrial Relationships)
Magnetohydrodynamics
Magnitudes, Absolute
Meridian Circle
Meteors
Moon

Nebulae, Emission
Nebulae, Planetary
Nonstable Stars

Observatories
Optics
Orbits, Theory and Computation

Photographic Process and Materials
Planets and Satellites, Observations
Planets and Satellites, Structure
Polarization and Polarimetry

Radio Astronomy, Cosmic Sources
Radio Astronomy, General Considerations
Radio Astronomy, Meteors
Radio Astronomy, Planets and the Moon
Radio Astronomy, Sun
Radio Telescopes
Refraction, Atmospheric
Relativity
Rotation, Stellar

Seeing and Scintillation
Sequences, Stellar
Solar-Terrestrial Relationships

Sun, Radio Emission
Sun, Spectrum
Sunspots
Synchrotron Radiation

Technetium
Time Service and Time Signals

Variable Stars
Visual Binaries

Absorption of Light
Absorption of Light in a Mixture of the Negative Ions O_2^-, H^- and O^-. O. L. Vaisberg - 877
An Investigation of the Relation between the Color Excess and the Factor for Converting Selective Absorption into Total Absorption. I. A. F. Torodzhadze - 60
An Investigation of the Relation between the Color Excess and the Factor Transforming Selective Absoption into Total Absorption. II. A. F. Torondzhadze - 507
"Cold" Interstellar Gas and Light Absorption. V. L. Krasovskii - 775
Contribution on the Formula for the Coefficient of Proportionality between the General and Selective Absorption of Light and on Neutral Absorption of Light in the Galaxy, A. S. Sharov - 266
The Determination of the Constant Parameters in the Relation between the Coefficient of Cosmic Absorption and Wavelength. A. F. Torondzhadze - 795
The Possibility of Absorption of Solar L_α - Radiation by the Interplanetary Medium. G. M. Nikol'skii - 610
Artificial Satellites
Determination of the Photographic Position of an Artificial Earth Satellite by Two Reference Stars. A. N. Deich - 758
Photographic Observations of the Sputniks with the Maksutov Meniscus Telescope. D. A. Rozhkovskii, V. S. Matiagin and A. V. Kharitonov - 438
The Influence of Tidal Friction on the Motion of an Artificial Earth Satellite. G. A. Leikin - 268
Time Marking in the Photographing of Artificial Earth Satellites. Iu. N. Lipskii - 273
Associations of Stars
On the Expansion of Association II Cephei. K. A. Shteins and M. K. Abele - 70
On the Question of the Spatial Distribution of of Hot-Star Groupings. L. M. Kopylov - 359
The Spectrum-Luminosity Diagram for T-Associations. P. N. Kholopov - 398
Asteroids (Minor Planets)
Zodiacal Light as the Product of Disintegration of Asteroids. V. G. Fesenkov - 303
Zenith Telescope
Zodiacal Light

Astrographic Measurements
The Determination of the Atmospheric Dispersion Coefficient for the Pulkovo Normal Astrograph. F. F. Bulatova-Kalikhevich - 871
Astronomy, History and Progress
Plenum of the Commission of the History of Astronomy. Iu. G. Perel' - 470
Progress-Coordinating Plenum of the Astronomical Council of the Academy of Sciences of the USSR, Held at Pulkovo, February 5-7, 1958. V. S. Safronov - 468
The Scientific Work of the Helwan Observatory. V. G. Fesenkov - 256
The Tenth International Astronomical Congress in Moscow. A. Masevich - 887
Atomic and Molecular Spectra
On Technetium Lines in the Solar Spectrum. A. A. Nikitin - 15
On the Frequency of the Radio Lines of the CH Molecule. E. A. Benediktov - 608
Aurorae
On the Profiles and the Hydrogen Lines in Auroral Spectra. Iu. I. Gal'perin - 351
The Characteristic Properties of Solar Corpuscular Emission from Auroral Spectra. V. I. Krasovskii - 199
The Influence of Proton Spiral Trajectories on the Doppler Profile of Auroral Hydrogen Lines. B. A. Bagariatskii - 87
The Velocity Dispersion of a Solar Corpuscular Stream near the Earth. B. A. Bagariatskii - 203
The Zenith-Angle Distribution Function of Auroral Protons. B. A. Bagariatskii - 453
Book Reviews
"Discovery of the Universe" by Gerard de Vaucouleurs, Book Review. Iu. G. Perel' - 631
Review of Vistas in Astronomy (2 volumes), edited by M. Beer. B. A. Vorontsov-Vel'iaminov - 454
Catalogs
Visual Catalogs of Absolute Magnitudes of Comets. S. V. Orlov - 444
Celestial Mechanics
Definition of the True Anomaly in Perturbed Motion. V. A. Egorov - 147

Development of the Force Function for the Mutual Attraction of Two Ellipsoids (Uniform and Nonuniform). V. T. Kondurar' - 712
On a Unique Solution for the f Parameter of the Physical Libration of the Moon. Sh. T. Khabibullin - 622
On the Determination of the Secular Motions of the Perihelion and Node from Observations. M. S. Iarov-Iarovoi - 721
Remarks on the Computation of Special Perturbations of Elements. N. S. Samoilova-Iakhontova - 748
The Analytical Theory of Motion of Japetus. E. A. Grebenikov - 850
The Differential Equations of Translational-Rotational Motion of Mutually Attracting Rigid Bodies. G. N. Duboshin - 239
The Equations of Motion and the Coordinate Conditions in the Relativistic N-Body Problem. V. A. Brumberg - 839
The Evolution of Rotating Systems of Gravitating Bodies. T. A. Agekian - 22
The Influence of Tidal Friction on the Motion of an Artificial Earth Satellite. G. A. Leikin - 268
The Limiting Criterion for the Capture of Comets. K. A. Shteins - 139

Charged Particles, Acceleration and Emission
On Some Peculiarities of the Magnetodecelerating Mechanism of Nonthermal Radio Emission. G. G. Getmantsev - 676
On the Galactic Halo. V. A. Razin - 778
On the Nature of the Fine Structure of Emission of Active Regions on the Sun. I. S. Shklovskii - 786
The Physical Nature of Nonthermal Emission in the Spectra of Tau Stars and the Problem of the Origin of Cosmic Rays. I. L. M. Gordon - 420

Clusters, Open
A Study of the Open Cluster IC 1369. E. A. Dibai - 884
Clusters in the Region of the North America Nebula. K. B. Barkhatova - 410
Some Results of a Study of the Cluster NGC 6940. N. B. Grigor'eva - 881
The Distribution of Stellar Density in the Open Cluster M37. N. M. Artiukhina and P. N. Kholopov - 486
The Open Cluster NGC 1664. K. A. Barkhatova - 449

Color Excess
An Investigation of the Relation between Color Excess and the Factor for Converting Selective Absorption into Total Absorption. I. A. F. Torondzhadze - 60
An Investigation of the Relation between the Color Excess and the Factor Transforming Selective Absorption into Total Absorption. II. A. F. Torondzhadze - 507
Contribution on the Formula for the Coefficient of Proportionality between the General and Selective Absorption of Light and on Neutral Absorption of Light in the Galaxy. A. V. Sharov - 266

Color-Magnitude Diagram
A Study of the Open Cluster IC 1369. E. A. Dibai - 884
Clusters in the Region of the North America Nebula. K. A. Barkhatova - 410
Some Results of a Study of the Cluster NGC 6940. N. B. Grigor'eva - 881
The Open Cluster NGC 1664. K. A. Barkhatova - 449

Comets
An Investigation of the Motion of the Comet Oterma 3 1942 VII. A. V. Fokin - 628
On the Capture Hypothesis of the Origin of Short-Period Comets. S. K. Vsekhsviatskii, O. L. Babich and V. V. Kaziutinskii - 433
VII Plenum of the Commission of Comets and Meteors of the Astronomical Council of the Academy of Sciences of the USSR. V. A. Bronshten and L. T. Zotkin - 462
Some Photometric and Spectral Characteristics of Comet 1956h. L. A. Panaiotov - 230
The Limiting Criterion for the Capture of Comets. K. A. Shteins - 139
The Nonstationary Distribution of Apparent Density in Comets. D. O. Mokhnach - 560
Visual Catalogs of Absolute Magnitudes of Comets. S. V. Orlov - 444

Computing and Automatic Computers
A Note on the Solution of Kepler's Equation. M. K. Ventsel' - 625

Conferences and Meetings
Conference on the Scintillation of Stars and the Problem of Wave Propagation in a Medium with Random Anomalies. O. A. Mel'nikov and L. G. Kolchinskii - 767
International Conference on "Interplanetary Matter". J. Hoppe - 457
Plenum of the Commission on the History of Astronomy. Iu. G. Perel' - 470
Progress-Coordinating Plenum of the Astronomical Council of the Academy of Sciences of the USSR, Held at Pulkovo, February 5-7, 1958. V. S. Safronov - 468

Session of the Astronomical Council of the Academy of Sciences of the USSR and of the Academy of Sciences of the Azerbaijan SSR. V. S. Safronov - 466

VII Plenum of the Commission of Comets and Meteors of the Astronomical Council of the Academy of Sciences of the USSR. V. A. Bronshten and L. T. Zotkin - 462

The Tenth International Astronomical Congress in Moscow. A. Masevich - 887

The Twelfth General Assembly of the URSI (Radio Astronomy). V. V. Vitkevich - 286

Coordinates, Astronomical

A Comparison of Declination Obtained by Different Methods from Observations with a Zenith Telescope. S. V. Drozdov - 145

The Transformation of Rectangular Space Coordinates on the Earth's Ellipsoid. L. G. Letoval'tsev - 582

Cosmic Rays

The Physical Nature of Nonthermal Emission in the Spectra of Tau Stars and the Problem of the Origin of Cosmic Rays. L. L. M. Gordon - 420

Deuterium

The Investigation of Radio Emission from the Galactic Center on a Wavelength $\lambda = 91.6$ cm. K. S. Stankevich - 136

Earth, Atmosphere

Expedition of the Academy of Sciences of the USSR to Aswan, Egypt, for Observations of the Zodiacal Light and the of the Optical Properties of the Atmosphere. V. G. Fesenkov - 276

On the Profiles of the Hydrogen Lines in Auroral Spectra. Iu. L. Gal'perin - 351

Some Conclusions from Observations of the Coefficient of Transparency of the Earth's Atmosphere at Kuchino. G. F. Sitnik and R. N. Khmeleva - 878

The Characteristic Properties of Solar Corpuscular Emission from Auroral Spectra. V. I. Krasovskii - 199

The Influence of Proton Spiral Trajectories on the Doppler Profile of Auroral Hydrogen Lines. B. A. Bagariatskii - 87

The Interplanetary Medium and Some Problems of the Physics of the Upper Atmosphere. I. S. Shklovskii - 516

Eclipse, Solar

Observations of Total Solar Eclipse of June 30, 1954 at Millimeter Wavelengths. A. E. Salmononovich, Iu. N. Parlskii, and U. V. Khangil'din - 612

Emission-Line Stars

On the Interpretation of the Emission Spectrum of Long-Period Variable Stars, II. V. G. Gorbatskii - 698

Envelopes, Stellar

On the Anomalous Excitation of Hydrogen in the Atmosphere of α Boo. M. Ia. Orlov - 704

Extinction, Atmospheric

Some Conclusions from Observations of the Coefficient of Transparency of the Earth's Atmosphere at Kuchino. G. F. Sitnik and R. N. Khmeleva - 878

Extinction, Interstellar

Absorption of Light in a Mixture of the Negative Ions O_2^-, H^- and O^-. O. L. Vaisberg - 878

An Investigation of the Relation between Color Excess and the Factor for Converting Selec-877
tive Absorption into Total Absorption into Total Absorption. I. A. F. Torondzhadze - 60

An Investigation of the Relation between the Color Excess and the Factor Transforming Selective Absorption into Total Absorption. II. A. F. Torondzhadze - 507

Contribution of the Formula for the Coefficient of Proportionality between the General and Selective Absorption of Light and on Neutral Absorption of Light in the Galaxy. A. S. Sharov - 266

The Determination of the Constant Parameters in the Relation between the Coefficient of Cosmic Absorption and Wavelength. A. F. Torondzhadze - 795

Galaxies

Radiogalaxies with Broad Emission Lines in Their Spectra. The Morphology of Galaxies. IV. B. A. Vorontsov-Vel'iaminov - 186

Statistical Mechanism of Galaxies with Non-homogeneous Stellar Populations. K. F. Ogorodnikov - 375

The Interaction of Galaxies and the Nature of Their Arms, Spanning Filaments and Tails. The Morphology of Galaxies. V. B. A. Vorontsov-Vel'iamincv - 805

Galaxy, The (Milky Way)

On the Galactic Halo. V. A. Razin - 778

On the Question of the Spatial Distribution of Hot-Star Groupings. I. M. Kopylov - 359

Some Peculiarities of Motion of B Stars in a Narrow Galactic Zone. I. A. Panaiotov - 54

The Investigation of Radio Emission from the Galactic Center on a Wavelength $\lambda = 91.6$ cm. K. S. Stankevich - 136

The Space Distribution of Early Spectral Type Stars. N. E. Kurochkin - 74

Gas Dynamics
The Dissipation of Gas from Planetary Atmospheres. I. The Dissipation of an Isothermal Ideal Gas in a Central Field of Gravitation. E. K. Biutner - 528
The Evolution of Globules in the Vicinity of Hot Stars. E. A. Dibai - 429
Geodesy
On the Use of Observations of the Moon for Geodetic Purposes. Kh. I. Potter - 573
Giant and Supergiant Stars
The Masses of the Components of γ Leonis, Which Belong to the Giants of the Spherical Component of the Galaxy. P. P. Parenago - 260
Hertzsprung-Russell (H-R) Diagram
A Revision of the Hertzsprung-Russell Diagram According to the Data on Near Stars. P. P. Parenago - 151
Some Peculiar Stars Found Below the Main Sequence of the H-R Diagram. A. G. Masevich - 263
The Kinematics of the Various Sequences of the Spectrum-Luminosity Diagram. P. P. Parenago - 446
The Spectrum-Luminosity Diagram for T-Associations. P. N. Kholopov - 398
Hydrogen, Lyman Series
The Possibility of Absorption of Solar L_α-Radiation by the Interplanetary Medium. G. M. Nikol'skii - 610
Image Converter
Some Methodological Problems in the Application of Image Converters in Astronomy. P. V. Shcheglov - 604
Instruments and Accessories
An Investigation of the Micrometer Screws of Level-Testers. S. S. Tovchigrechko - 730
Astronomical Instruments on Display at the Brussels International Fair. A. N. Dadaev - 634
Effect of Scattered Light in a Monochromator on Absolute Measurements Using a Standard Source. G. F. Sitnik - 119
Equipment for Radio-Echo Observation of Meteors with Automatic Recording at the Engel'gardt Astronomical Observatory. K. V. Kostylev - 596
On Increasing the Reliability of One-Second and Rhythmic Radio Time Signals. S. S. Tovchigrechko - 619
Photographic Observations of the Sputniks with the Maksutov Meniscus Telescope. D. A. Rozhkovskii, V. S. Matiagin and A. V. Kharitonov - 438
Some Methodological Problems in the Application of Image Converters in Astronomy. P. V. Shcheglov - 604
Some Procedural Problems in the Determination of Irregularities of Pivots Exemplified by Research Carried out on the Moscow Meridian Circle. A. P. Guliaev - 128
Stresses and Deformations of a Disk Suspended Vertically on a Flexible Band. E. E. Daniushevskii - 251
Time Marking in the Photographing of Artificial Earth Satellites. Iu. N. Lipskii - 273
International Astronomical Union (IAU)
The Tenth International Astronomical Congress in Moscow. A. Masevich - 887
Interplanetary Medium
International Conference on "Interplanetary Matter". J. Hoppe - 457
On the Polarization of Zodiacal Light. V. G. Fesenkov - 475
The Interplanetary Medium and Some Problems of the Physics of the Upper Atmosphere. I. S. Shklovskii - 516
The Possibility of Absorption of Solar L_α-Radiation by the Interplanetary Medium. G. M. Nikol'skii - 610
Zodiacal Light as the Product of Disintegration of Asteroids. V. G. Fesenkov - 303
Interstellar and Intergalactic Medium
"Cold" Interstellar Gas and Light Absorption. V. I. Krasovskii - 775
On the Glactic Halo. V. A. Razin - 778
The Evolution of Globules in the Vicinity of Hot Stars. E. A. Dibai - 429
Latitude
A Rapid Correction of the Declinations of Talcott Pairs when Small Changes Are Made in the Latitude-Determination Program. G. Teleki - 863
Luminosity Function
A Study of the Open Cluster IC 1369. E. A. Dibai - 884
Some Results of a Study of the Cluster NGC 6940. N. B. Grigor'eva - 881
Magnetohydrodynamics
Nonstationary Processes in Solar Flares as a Manifestation of the Pinch Effect. A. B. Severnyi - 310
On the Nature of the Fine Structure of Emission of Active Regions on the Sun. I. S. Shklovskii - 786
The Magnetogravitational Instability of an Infinite Cylinder. E. D. Dibai - 266

Magnitudes, Absolute
A Revision of the Hertzsprung-Russell Diagram According to the Data on Near Stars. P. P. Parenago - 151
Meridian Circle
Some Procedural Problems in the Determination of Irregularities of Pivots, Exemplified by Research Carried Out on the Moscow Meridian Circle. A. P. Guliaev - 128
Meteors
Equipment of Radio-Echo Observation of Meteors with Automatic Recording, at the Engel'gardt Astronomical Observatory. K. V. Kostylev - 596
Mean Characteristic Height of Meteors Dected by Radar. E. L. Fialko - 825
On the Effect of Meteor Velocities on the Hour Number in Radio-Echo Detection of Meteors. F. L. Peregudov - 833
VII Plenum of the Commission of Comets and Meteors on the Astronomical Council of the Academy of Sciences of the USSR. V. A. Bronshten and L. T. Zotkin - 462
Moon
On a Unique Solution for the f Parameter of the Physical Libration of the Moon. Sh. T. Khabibullin - 622
Radio Emission of the Moon at 8 Millimeters. A. E. Salomonovich - 112
The Threshold of Color Discrimination for Visual Observation of the Lunar Surface and the Maximum Color Difference of Lunar Objects. L. N. Radlova and V. V. Sharonov - 735
The Velocity of the Apparent Motion of the Moon among the Stars. Kh. T. Potter - 123

Nebulae, Emission
On the Nature of the Radiation from the Omega Nebula. V. A. Dombrovskii - 646
Nebulae, Planetary
A Note on the Intensity Variation of the Line λ 4363 [OIII] in the Spectrum of the Planetary Nebula IC 4997. G. A. Gurzadian - 482
Nonstable Stars
The Dissipation of the Energy of Oscillation of a Pulsating Star. S. A. Zhevakin - 538

Observatories
The Scientific Work of the Helwan Observatory. V. G. Fesenkov - 256
Optics
Effect of Scattered Light in a Monochromator on Absolute Measurements Using a Standard Source. G. F. Sitnik - 119

Orbits, Theory and Computation
An Investigation of the Motion of the Comet Oterma 3 1942 VII. A. V. Fokin - 628
A Note on the Solution of Kepler's Equation. M. K. Ventsel' - 625
Definition of the True Anomaly in Perturbed Motion. V. A. Egorov - 147
On the Capture Hypothesis of the Origin of Short-Period Comets. S. K. Vsekhsviatskii, O. L. Babich and V. V. Kaziutinskii - 433
On the Determination of the Secular Motions of the Perihelion and Node from Observations. M. S. Iarov-Iarovoi - 721
Remarks on the Computation of Special Perturbations of Elements. N. S. Samoilova-Iakhontova - 748
The Analytical Theory of Motion of Japetus. E. A. Grebenikov - 850

Photographic Process and Materials
A Comparison of the Properties of Photographic Plates Associated with the Photographing of Extended and Point Objects. L. L. Breido - 589
Planets and Satellites, Observations
Basic Results of Observations of Mars during the Favorable Opposition of 1956. N. P. Barabashov - 814
Concerning the "Philosophical Foundation" of One Question. Iu. G. Perel' - 744
Contribution to the Study of the Structure of the South Polar Ice Cap of Mars during 1956. N. P. Barabashov and L. K. Koval' - 234
The Absolute Photometry of Venus in Ultraviolet and Infrared Light. L. K. Koval' - 739
The Threshold of Color Discrimination for Visual Observation of the Lunar Surace and the Maximum Color Difference of Lunar Objects. L. N. Radlova. and V. V. Sharonov - 735
Planets and Satellites, Structure
The Dissipation of Gas from Planetary Atmospheres. I. The Dissipation of an Isothermal Ideal Gas in a Central Filed of Gravitation. E. K. Biutner - 528
Polarization and Polarimetry
On the Nature of the Radiation from the Omega Nebula. V. A. Dombrovskii - 646
On the Polarization of Zodiacal Light. V. G. Fesenkov - 475
On the Total Polarization of Light. V. G. Fesenkov - 639
The Dependence of the Equivalent Widths of Coronal Lines on the Degree of Polarization of the Continuous Spectrum of the Corona, Iu. N. Lipskii - 615

The Polarization of Cosmic Radio Radiation at Wavelengths of 1.45 and 3.3 Meters. V. A. Razin - 216

Radio Astronomy, Cosmic Sources

On the Intensity Distribution of the Discrete Radio Source Taurus A. V. A. Udal'tsov and V. V. Vitkevich - 669

Radiogalaxies with Broad Emission Lines in Their Spectra. The Morphology of Galaxies. IV. B. A. Vorontsov-Vel'iaminov - 186

The Investigation of Radio Emission from the Galactic Center on a Wavelength $\lambda = 91.6$ cm. K. S. Stankevich - 136

The Polarization of Cosmic Radio Radiation at Wavelengths of 1.45 and 3.3 Meters. V. A. Razin - 216

Radio Astronomy, General Considerations

Mean Characteristic Height of Meteors Detected by Radar. E. L. Fialko - 825

On Some Peculiarities of the Magnetodecelerating Mechanisms of Nonthermal Radio Emission. G. G. Getmantsev - 676

On the Effect of Meteor Velocities on the Hour Number in Radio-Echo Detection of Meteors. F. L. Peregudov - 833

On the Frequency of the Radio Lines of the CH Molecule. E. A. Benediktov - 608

The Diffraction of Radio Waves by Random Nonuniformities, and Intensity Variations of Solar and Cosmic Radio Emission. V. V. Pisareva - 97

The Twelfth General Assembly of the URSI (Radio Astronomy). V. V. Vitkevich - 286

Radio Astronomy, Meteors

Equipment for Radio-Echo Observation of Meteors with Automatic Recording, at the Engel'gardt Astronomical Observatory. K. V. Kostylev - 596

Radio Astronomy, Planets and the Moon

On the Theory of the Sporadic Radio Emission from Jupiter. V. V. Zheleznyakov - 206

Radio Emission of the Moon at 8 Millimeters. A. E. Salomonovich - 112

Radio Astronomy, Sun

Bursts of Solar Radio Emission. V. V. Vitkevich and Z. L. Kameneva - 343

Observations of the Total Solar Eclipse of June 30, 1954, at Millimeter Wavelengths. A. E. Salomonovich, Iu. N. Parijskii and U. V. Khangil'din - 612

On the Possible Mechanisms of Sporadic Solar Radio Emission (Radiation in an Isotropic Plasma). V. L. Ginzburg and V. V. Zheleznyakov - 653

Radio Telescopes

The Twelfth General Assembly of the URSI (Radio Astronomy). V. V. Vitkevich. - 286

Refraction, Atmospheric

The Determination of the Atmosphere Dispersion Coefficient for the Pulkovo Normal Astrograph. F. F. Bulatova-Kalikhevich - 871

Relativity

The Equations of Motion and the Coordinate Conditions in the Relativistic N-Body Problem. V. A. Brumberg - 839

Rotation, Stellar

On the Change of Rotational Velocity in Stellar Evolution. T. A. Agekian - 389

On the Distribution of Stellar Rotational Velocities. A. A. Boiarchuk and L. M. Kopylov - 752

Seeing and Scitillation

Conference on the Scintillation of Stars and the Problem of Wave Propagation in a Medium with Random Anomalies. O. A. Mel'nikov and L. G. Kolchinskii - 767

The Influence of Meteorological Conditions on the Intensity of Light Scintillation near the Earth's Surface. V. I. Tartarskii, A. S. Gurvich, M. A. Kallistratova, and L. V. Terent'eva - 578

Sequences, Stellar

A Revision of the Hertzsprung-Russell Diagram According to the Data on Near Stars. P. P. Parenago - 151

The Kinematics of the Various Sequences of the Spectrum-Luminosity Diagram. P. P. Parenago - 446

Solar-Terrestrial Relations

Plages and the Twenty-Seven-Day Reccurence Tendency in Geomagnetic Disturbances. E. R. Mustel' and O. N. Mitropol'skaia - 172

Solar Acitivity and Geomagnetic Distrubances in 1942-1944. E. R. Mustel' and A. S. Dvoriashin - 1

Spectrophotometry

The Calibration of the Gradient (Spectrophotometric) Stellar Temperature Scale by Reference to the Sun. O. A. Mel'nikov - 195

Spectroscopic Binaries

On the Period-Eccentricity Correlation. V. V. Radzievskii - 552

Spectroscopy, Stellar

On the Interpretation of the Emission Spectrum of Long-Period Variable Stars II. V. G. Gorbatskii - 698

Spectrum, Line Identification
On the Lines of Technetium in the Solar Spectrum. II. A. A. Nikitin - 338
Stars, Distribution in Space
On the Question of the Spatial Distribution of Hot-Star Groupings. L. M. Kopylov - 359
The Distribution of Stellar Density in the Open Cluster M37. N. M. Artiukhina and P. N. Kholopov - 486
The Space Distribution of Early Spectral Type Stars. N. E. Kurochkin - 74
Stars, Formation
The Evolution of Globules in the Vicinity of Hot Stars. E. A. Dibai - 429
The Magnetogravitational Instability of an Infinite Cylinder. E. A. Dibai - 226
Stars, Motion in Space
On the Expansion of the Association II, Cephei. K. A. Shteins and M. K. Abele - 70
The Division of Short-Period Cepheids into Two Subsystems. N. E. Kurochkin - 141
The Kinematics of the Various Sequences of the Spectrum-Luminosity Diagram. P. P. Parenago - 446
Some Peculiarities of Motion of B Stars in a Narrow Galactic Zone. L. A. Panaiotov - 54
Stars, Structure and Evolution
On the Anomalous Excitation of Hydrogen in the Atmosphere of α Boo. M. Ia. Orlov - 704
On the Change of Rotational Velocity in Stellar Evolution. T. A. Agekian - 389
Some Peculiar Stars Found Below the Main Sequence of the H-R Diagram. A. G. Masevich - 263
The Dissipation of the Energy of Oscillations of a Pulsating Star. S. A. Zhevakin - 538
Stars, Temperature
The Calibration of the Gradient (Spectrophotometric) Stellar Temperature Scale by Reference to the Sun. O. A. Mel'nikov - 195
Stellar Systems, Dynamics
Statistical Mechanics of Galaxies with Non-homogeneous Stellar Populations. K. F. Ogorodnikov - 375
The Evolution of Rotating Systems of Gravitating Bodies. T. A. Agekian - 22
Sun, Chromosphere
Models of the Solar Chromosphere. I. S. Shklovskii - 32
Sun, Corona
New Data on the Supercorona of the Sun. V. V. Vitkevich - 45
The Dependence of the Equivalent Widths of Coronal Lines on the Degree of Polarization of the Continuous Spectrum of the Corona. Iu. N. Lipskii - 615
Sun, Corpuscular Emission
Corpuscular Streams during the Years of Minimum Solar Activity of the Their Properties. E. R. Mustel' - 326
The Characteristic Properties of Solar Corpuscular Emission from Auroral Spectra. V. I. Krasovskii - 99
The Velocity Dispersion of a Solar Corpuscular Stream near the Earth. B. A. Bagariatskii - 203
Sun, Flares
Nonstationary Processes in Solar Flares as a Manifestation of the Pinch Effect. A. B. Severnyi - 310
Sun, Photosphere
Plages and the Twenty-Seven-Day Recurrence Tendency in Geomagnetic Distrubances. E. R. Mustel' and O. N. Mitropol'skaia - 172
Sun, Radio Emission
Bursts of Solar Radio Emission. V. V. Vitkevich and Z. I. Kameneva - 343
Sun, Spectrum
On Technetium Lines in the Solar Spectrum. A. A. Nikitin - 15
On the Lines of Technetium in the Solar Spectrum. II. A. A. Nikitin - 338
On the Nature of the Fine Structure of Emission of Active Regions on the Sun. I. S. Shklovskii - 786
Sunspots
On the Structure of the Velocity Field on Motions in Latitude of Nonrecurring Sunspots. M. A. Kliakotko - 869
Theoretical and Observed Equivalent Widths of Some Strong Lines in the Sunspot Spectrum. V. S. Berdichevskaia - 682
Synchroton Radiation
On Some Peculiarities of the Magnetodecelerating Mechanism of Nonthermal Radio Emission. G. G. Getmantsev - 767
On the Nature of the Radiation from the Omega Nebula. V. A. Dombrovskii - 646
The Physical Nature of Nonthermal Emission in The Spectra of Tau Stars and the Problem of the Origin of Cosmic Rays. I. I. M. Gordon - 420

Technetium
On Technetium Lines in the Solar Spectrum. A. A. Nikitin - 15

On the Lines of Technetium in the Solar Spectrum. II. A. A. Nikitin - 338

Time Service and Time Signals

On Increasing the Reliability of One-Second and Rhythmic Radio Time Signals. S. S. Tovchigrechko - 619

Variable Stars

On the Interpretation of the Emission Spectrum of Long-Period Variable Stars. II. V. G. Gorbatskii - 698

The Division of Short-Period Cepheids into Two Subsystems. N. E. Kurochkin - 141

The Physical Nature of Nonthermal Emission in the Spectra of Tau Stars and the Problem of the Origin of Cosmic Rays. I. I. M. Gordon - 420

Visual Binaries

On the Period-Eccentricity Correlation. V. V. Radzievskii - 552

The Masses of the Components of γ Leonis, Which Belong to the Giants of the Spherical Component of the Galaxy. P. P. Parenago - 260

Zenith Telescope

A Comparison of Declinations Obtained by Different Methods from Observations with a Zenith Telescope. S. V. Drozdov - 145

Zodiacal Light

Expedition of the Academy of Sciences of the USSR to Aswan, Egypt, for Observations of the Zodiacal Light and of the Optical Properties of the Atmosphere. V. G. Fesenkov - 276

On the Polarization of Zodiacal Light. V. G. Fesenkov - 475

On the Reduction of Observation of Zodiacal Light. V. G. Fesenkov - 299

Zodiacal Light as the Product of Disintegration of Asteroids. V. G. Fesenkov - 303
